The Council, the governing body of the College, consists of twenty-four Members, three* of whom go out in rotation annually in July, but are eligible for re-election by the Fellows of the College. All proceedings of the Court of Examiners, the Board of Examiners in Anatomy and Physiology, the Midwifery and Dental Boards, and the several Committees are reported to the Council for approval and confirmation. The Meetings of the Council are generally held in each month of the year, except in the month of September, and at such other times as the business of the College may require. During the past Collegiate Year there have been thirteen Meetings.

THE COURT OF EXAMINERS.

The Court of Examiners consists of ten Members elected by the Council from the Fellows of the College. The Court superintends the carrying out generally the regulations of the Council relating to the preliminary and professional education of Students, and conducts the Pass Examinations in Surgery and Surgical Anatomy of Candidates for the Diplomas of Fellow and Member of the College. During the past Collegiate year the Court has held two Meetings for the Examinations for the Fellowship, and thirty-one Meetings for the Pass Examinations for the Membership.

THE BOARD OF EXAMINERS IN ANATOMY AND PHYSIOLOGY.

The Board consists of nine Members annually elected by the Council from the Fellows of the College. The Board conducts the Primary Examinations in Anatomy and Physiology for the Diplomas of Fellow and Member, and has held six Meetings for the Fellowship and forty-one Meetings for the Membership.

PRESIDENT'S REPORT.

THE following Report concerning the affairs of the College during the past official year, which it is my duty to draw up for presentation to the Council, and for the information of the Fellows and Members, includes only an account of matters decided by the Council. Statements of the progress of the Museum and of the Donations to the Library will be found in the Reports of the Conservator and the Librarian, respectively, published in the Calendar of the College.

Quarterly
Council,
July 10, 1879.

At the Quarterly Council on July 10, 1879, it was reported that at the Annual Meeting of the Fellows of the College, held on the 3rd of July, 1879, for the election of Members of Council, the four vacancies, occasioned by the lamented death of Mr. John Hilton and the retirement in rotation of Mr. Frederick Le Gros Clark, Mr. Thomas Spencer Wells, and Mr. Critchett, were filled by the re-election of Mr. Thomas Spencer Wells, and the election of Mr. John Wood, Mr. Henry Power, and Mr. Jonathan Hutchinson.

At the same Council the several annual appointments were made. Mr. Luther Holden was elected President of the College, and Mr. John Eric Erichsen and Mr. William James Erasmus Wilson, Vice-Presidents.

Mr. Jonathan Hutchinson was re-elected Professor of Surgery and Pathology. Mr. William Henry Flower and Mr. William Kitchen Parker were re-elected Joint-Professors of Comparative Anatomy and Physiology. Mr. Benjamin Thompson Lowne was re-elected Lecturer on Anatomy and Physiology.

A special vote of thanks was given to Mr. W. J. Erasmus Wilson for a donation of thirty-seven skulls to the Museum—a donation fully described in the Conservator's Report. A special vote of thanks was also given to Mr. Thomas Taylor for valuable services rendered to the Museum of the College by the completion of the Catalogue of Calculi. The portrait of Mr. John Hilton, presented by his widow, was also accepted with thanks.

Ordinary
Council,
Aug. 11, 1879.

At the Ordinary Council on August 11, 1879, the resignation of Dr. E. H. Sieveking, one of the Examiners in Medicine, was accepted, he having resigned in consequence of his appointment as Senior Censor of the Royal College of Physicians.

The resignation of Mr. J. Eric Erichsen as a member of the Court of Examiners was also accepted.

At the Special Council on October 16, 1879, Mr. John Wood was elected a Member of the Court of Examiners, to fill the vacancy occasioned by the resignation of Mr. Erichsen. Special Council,
Oct. 16, 1879.

At the Quarterly Council (held immediately after the Special), on October 16, 1879, a special vote of thanks was given to the Conservator of the Museum on his completion of the first part of the Osteological Catalogue, containing the series of skeletons and crania of the various races of Man. The Council was fully sensible of the care and labour bestowed upon it, and felt assured of its great value as a contribution to the study of Anthropological Science. Quarterly Council,
Oct. 16, 1879.

Dr. William Howship Dickinson was elected an Examiner in Medicine in the place of Dr. Sieveking, resigned.

The Council, in pursuance of their powers under Section XVIII. of the Bye-Laws, removed "Francis James Hammond," convicted of felony, from being a Member of the College.

The following Resolution, proposed by Mr. H. Hancock, was carried:—

"That, in view of the little prospect which now exists of any immediate Medical Legislation, a Committee be appointed to consider the following questions, and to report thereon to the Council, viz.:

"1. That the necessary arrangements be made for the institution of Examinations in Chemistry, Materia Medica, Pharmacy, and Midwifery, to be passed by all Candidates (not otherwise qualified in these subjects) for the Membership and Fellowship of the College.

"2. To advise the Council as to the Degrees, Diplomas, or Certificates which should be accepted as exempting Candidates from the necessity of passing the Examinations in these subjects."

At the Ordinary Council on November 13, 1879, the Committee on "Examinations in Anatomy and Physiology" were elected; and the Committee, to be appointed in pursuance of the motion carried by Mr. Hancock at the last meeting, "to make arrangements for additional Examinations for the Diplomas of Member and Fellow" was also elected. Ordinary Council,
Nov. 13, 1879.

At the Ordinary Council on December 8, 1879, the following Fellows of the College (recommended by the Committee on "Examinations in Anatomy and Physiology") were elected Members of the Board of Examiners in Anatomy and Physiology for the Membership and Fellowship of the College for the ensuing year, viz. :— Ordinary Council,
Dec. 8, 1879.

FOR ANATOMY.

Mr. John Wood.
Mr. Christopher Heath.
Mr. Arthur E. Durham.
Mr. Thomas P. Pick.
Mr. Walter Rivington.

FOR PHYSIOLOGY.

Mr. Henry Power.
Mr. John W. Hulke.
Mr. W. Morrant Baker.
Mr. B. Thompson Lownc.

Other recommendations contained in the Report of the Committee

on Examinations in Anatomy and Physiology were approved by the Council, namely,—that it be no longer necessary that a Member of the Court should be either Member or Chairman of the Board; and that the Chairman of the Board be in future elected annually by the Members of the Board, subject to his being chosen from either the Anatomical or Physiological Sections, according to whichever of those Sections shall then constitute the majority of the Board.

The resignation of Mr. T. B. Curling as a Member of the Court of Examiners was accepted by the Council.

The President having brought under the notice of the Council that the celebrated collection of Crania belonging to Dr. J. Barnard Davis had been offered by that gentleman to the College for the sum of £1000, it was unanimously resolved that such a rare opportunity of enriching the Osteological department of the Museum should not be lost, and that the Museum Committee be authorized to take the necessary steps for the acquisition of such a valuable collection.

Special
Council,
Jan. 7, 1880.

At the Special Council on January 7, 1880, the President reported the recent decease of a much-beloved Member of Council, Mr. Henry Hancock, and that the vacancy thereby created in the Council would be filled up at the Annual Meeting of the Fellows in July. Thereupon it was unanimously resolved that the President be requested to express to Mrs. Hancock and her family the sincere condolence of the Council in their irreparable loss; and that the Council feel that by the death of Mr. Hancock they have lost not only a valued and esteemed personal friend, but a colleague who, throughout the whole of his long official career, has taken the keenest interest in the welfare of the College, and has worked with incessant energy for the good of the profession which he adorned.

Mr. John Whitaker Hulke was elected a Member of the Court of Examiners, in the place of Mr. Curling, whose resignation had been accepted at the last Council.

Quarterly
Council,
Jan. 8, 1880.

At the Quarterly Council on January 8th, 1880, in accordance with the new arrangements for enlarging the scientific scope of the Erasmus Wilson Endowment approved by the Council (December 12th, 1878), Mr. Henry Trentham Butlin was appointed an Erasmus-Wilson Professor for the coming Session; and permission was given to him to deliver three lectures "On the Structure and Nature of certain Tumours."

Mr. Luther Holden was appointed to deliver the Hunterian Oration in February 1881.

Mr. John Wood and Mr. J. W. Hulke resigned their seats as Members of the Board of Examiners. Their resignation was accepted, to take effect from the 16th of January.

Ordinary
Council,
March 11, 1880.

At the Ordinary Council, March 11th, 1880, Mr. Edward Bellamy (for Anatomy) and Mr. Jeremiah M'Carthy (for Physiology) were appointed to succeed Mr. J. Wood and Mr. J. W. Hulke as Members of the Board of

Examiners in Anatomy and Physiology, on the recommendation of the Committee for these Examinations.

A recommendation by the same Committee was adopted, providing for the appointment by the Committee from the Fellows of the College (who have been Members of the Board of Examiners) of substitute Examiners, to supply the places of Examiners absent through illness or any other unavoidable cause.

The President reported the proceedings which he had taken, in conjunction with the President of the Royal College of Physicians, in reference to the "International Medical Congress" proposed to be held in London some time during the year 1881, and suggested that a Delegate should be nominated by the Council to represent the College in the Committee appointed to make the necessary arrangements for such Congress. It was thereupon resolved, "That the Proceedings of the President be approved, and that the President for the time being be nominated the Delegate from this College."

At this Council the following report of the Committee on Bye-Laws relating to Fees and other matters was approved and adopted, namely:—

REPORT OF THE COMMITTEE.

The Committee appointed on the 10th of April last have in several Meetings fully considered the subjects referred to them in the following Resolutions of the Council, dated the 13th of March and the 12th of June last respectively:—

Report of Committee on Fees &c.

1. That the principle be adopted that Candidates who have been rejected at any Examination of the College must, on re-examination, pay at least such Fee as will cover the expenses of the re-examination; that it be referred to a Committee to prepare for the Council draft Bye-Laws for giving effect to this principle; and that the formulæ for new Bye-Laws which the Council has already approved, but to which the Secretary of State took exception, be referred to the same Committee for consideration and report to the Council, with a view to such immediate action as the Council may see fit.
2. That the whole question of the payment of Fees by and to the College be referred to the Committee on Bye-Laws relating to Fees and other matters, appointed by the Council on the 10th of April last.

I. For the purpose of "giving effect to the Principle" that "Candidates who have been rejected at any examination of the College must, on re-examination, pay at least such fees as will cover the expenses of the re-examination," the Committee have prepared, and recommend to the approval of the Council, the following Regulations relating to payments by Candidates for the Membership and Fellowship, viz.:—

MEMBERSHIP.

For the *Primary* Examination, the Fee shall be 5 guineas, or, if it be the Re-Examination of a previously unsuccessful Candidate, 3 guineas; and the fee shall not be returned to a Candidate who fails to pass the examination or re-examination.

For the *Final* Examination or Re-Examination, the fee shall be 15 guineas, over and above all charge for stamps; and 10 guineas shall be returned to a Candidate who fails to pass the examination or re-examination.

FELLOWSHIP.

The Fees to be paid for admission to the Fellowship by Examination, over and above all charge for stamps, shall be as follows :—

- (a) for Members of the College, if succeeding on their first examinations, 15 guineas ; but with liability to higher payment (as hereinafter provided) in cases where re-examination is required ;
- (b) for persons not Members of the College, 30 guineas.

Of the above respective amounts, one third part shall be paid before admission to the *Primary* (or anatomical and physiological) Examination ; and the remaining two thirds, together with the charge for stamps, shall be paid before admission to the *Final* Examination.

Of the fee of 5 guineas, to be paid by Members of the College before they are admitted to the *Primary* Examination, no portion will be returned to unsuccessful Candidates ; but of the fee of 10 guineas, to be paid by persons who are not Members, half will, in case of rejection, be returned. Of the fee of 10 guineas, to be paid by Members of the College before they are admitted to the *Final* Examination, no portion will be returned to unsuccessful Candidates ; but of the fee of 20 guineas to be paid by persons who are not Members, half will, in case of rejection, be returned. And in all cases, any money which has been prepaid as a charge for stamps will be returned to rejected Candidates.

Candidates, who, having failed at an Examination, subsequently desire *Re-Examination*, are, on each such occasion, subject to the same conditions regarding payment as those on which they were first examined : except that in all cases previous payments shall be taken into account, and that, if in any case a total payment of 30 guineas for the Fellowship has been made, no further payment shall be required.

II. In considering all the subjects which seemed comprised within the range of the “ whole question of the payment of Fees,” the Committee found it very useful to have before them a complete statement of the Income and Expenditure of the College, in each of the several departments of its work, during each of the last ten years. From this statement, for which the Committee are indebted to Mr. Marshall, they have taken some chief facts which they regard as deserving the very careful attention of the Council.

1. During the last ten years the average annual income of the College from Fees paid for the *Preliminary Examinations* has been about £860 ; the average annual expenditure in the same Examinations has been about £390 ; and the average balance in favour of the College £470. The difference in the two halves of the period has been trifling.

2. In the first half of the last ten years the average annual Income from Fees paid for the *Professional Examinations* for the Membership was about £8600 ; the average annual payments to Examiners were about £3490 ; the average amount of other expenses (including those for the Fellowship-examinations) about £180 ; the average cost of diploma-stamps about £340. The average annual clear Income of the College from these sources was about £4590.

In the same first five years the average annual Income from fees paid for the *Professional Examinations* for the Fellowship was about £520 ; the average annual payments to Examiners were about £380 ; the average annual clear Income from these examinations was about £140.

In the same five years the receipts from the *Dental Examinations* were, on an average, £95 a year ; the expenses about £50 ; the clear Income from them about £45 a year.

It may therefore be estimated that during the *first half* of the last ten years the College derived from the Professional Examinations a clear Income of about £4775

3. In the second half of the ten years the expenses of the Professional Examinations were increased, in and after 1876, by the institution of the Board of Examiners in Anatomy and Physiology.

During these five years the average annual Income from the Membership-examinations was about £9900; the average annual payments to the Examiners were about £4195; the average other expenses about £300, including those for the Fellowship-examinations; the average cost of diploma-stamps £375; the average clear Income was about £5030.

During the same last five years the average annual Income from the Fellowship-examinations was about £500; the average payments to Examiners about £660, the average annual loss was about £160*.

Of the *Dental Examinations* during the same five years the average receipts were £280 a year; the expenses about £180; the clear Income £100.

The clear Annual Income of the College from Professional Examinations during the *last five years* may, therefore, be estimated as about £4970; nearly £200 more than in the previous five years. The contrast seems satisfactory; but the expenses of the College in other departments have increased in a much larger proportion.

4. In other "Working Expenses," as they are named in the Calendar, there has been an increase from about £4100 annually in the first five years to about £5200 in the second; an increase chiefly due to Salaries and Wages, Printing, Repairs, and Alterations.

The Museum Expenses have remained nearly stationary; the Library Expenses have increased about £90 a year, and the "Extraordinary Expenses" about £40 a year.

5. On a general estimate of the total Income and Expenditure of the College during the last ten years, omitting Trust Funds from the comparison, it appears that in the first five years there was an average annual profit of about £500, and in the last five years an average annual loss of more than £50.

The contrast will appear the greater if it be added that in the last five years there was an increase of £500 a year in the Income from Investments.

6. The Committee feel sure that the statement of these facts will induce the Council to adopt measures for the improvement of the financial condition of the College. The improvement seems the more necessary on consideration of certain changes which are probably near at hand.

Some gradual increase of Income may be expected from the gradual increase of the number of persons entering the Profession, and from the law that all persons becoming Dentists must have a licence to practise. A further increase will result from the adoption by the Council of the proposed addition to the fee to be paid by Members on admission to the Fellowship by Examination. And it is probable that the Income from the College-investments will increase.

On the other hand, the Income from fees paid by Fellows on election, which has been quickly decreasing, will soon entirely cease; and, which is very important to be considered and prepared for, the Income of about £470 a year from the Preliminary Examinations will, in all probability, also soon come to an end. Further, it may be expected that an annual expense of about £250 will be incurred by the institution of the Examination in Midwifery, on which the Council decided in its resolution of the 11th of March 1869.

7. The Committee have carefully considered the means by which the College expenses may be diminished.

8. The Committee do not think it probable that any saving can soon be effected in the Salaries and Wages of the Officers and Servants of the College. The increase of more than £500 a year in the last ten years is due to the increasing length and

* In the last four years the average annual loss has been about £220.

value of the services rendered ; and a diminution of cost is not probable during the lives of those who have served the College well.

9. In other expenses of the College-work, as in those of Printing and Stationery, Fuel, and others, which, during the ten years, have increased from £835 to £980 a year, and those of Alterations, Repairs, and Painting, which have increased from £355 to £725 a year, the Committee cannot suggest any certain means of reduction ; but they hope that the General Purposes Committee will watch them very scrupulously, and exercise in them all reasonable economy.

The same may be said of the "Extraordinary Expenses," which, in the last five years, have been unusually heavy.

10. In the Museum and Library no diminution of expense can be looked for ; rather, it is much to be desired that means should, if possible, be provided for a considerably larger expenditure on both of them.

11. As regards the expenses of Professional Examinations, it is probable that the Re-examinations for the Membership cost the College not less than £1200 a year. This loss will cease if the proposed Regulations on Re-examinations be passed ; and, allowing for the number of Candidates who will come better prepared if every Examination has to be paid for, it may reasonably be hoped that one effect of the change will be equivalent to a saving of not less than £700 a year. A further, though comparatively small saving will be effected by the extra payments for Re-examinations for the Fellowship consequent on the adoption of the proposed Regulations.

12. In March 1877, when it was thought that the fee for the admission to the Fellowship would be increased, it was decided that the capitation-fee to the Court of Examiners should be increased from $2\frac{1}{2}$ to 12 guineas. The Committee, however, are of opinion that, in consideration of the loss which the College annually sustains by the Examinations for the Fellowship, a loss due to the fee fixed for the Fellowship being insufficient to cover the expenses of the Examinations, the capitation-fee should be reduced to 9 guineas.

13. The Committee find that the payments to the Examiners in Dental Surgery are, in proportion to the time occupied in the examination, larger than those to the Court of Examiners. They therefore recommend that the capitation-fee paid to the Dental Board should be at the same rate as that paid to the Court of Examiners for the Membership, viz. $2\frac{1}{2}$ guineas for each Candidate.

The change seems the more proper, because the Dental Charter renders it necessary that all expenses of examinations and re-examinations should be regarded as covered by the fixed payment of 10 guineas for the Dental License.

14. The Committee have considered the suggestion of the payment of an increased capitation-fee to the Board of Examiners, made in the Report of the Committee on Examinations in Anatomy and Physiology on the 5th of June last. The suggestion was made "subject to general financial considerations," and the Committee recommend that the decision on this point should be delayed till the results of the changes recommended in the present Report are known.

15. It may be expected that, if the fees to the Court of Examiners for the Fellowship be diminished in the manner now advised, the College will save about £75 a year ; and that by the diminution of fees to the Dental Board it will save a further £75 a year. These savings, added to those which may be expected from the payments for Re-examinations for the Membership and of Members for the Fellowship, make a probable total saving of nearly £1000 a year. Besides this saving, an addition of about £100 a year to the Income of the College may be expected from the proposed increased fee for the admission of Members to the Fellowship.

16. The Committee have believed that they might regard the payments made to the College by persons admitted to the Court of Examiners, and those made by the

College to Members of the Committee of Auditors, as coming within the "whole question of the payment of Fees" referred to the Committee by the Council. They recommend that these payments should cease, and that once in every year the College accounts should be audited by a professional accountant.

17. The Committee have considered, in several points of view, the question whether a saving might properly be effected in the payments to Members of the Court of Examiners in respect of the conduct of the Final Examination for the Membership, but have not been able to agree to any recommendation to the Council on the subject.

18. It is hoped by the Committee that draft Formulæ for New Bye-Laws to give effect to the above recommendations, and for the other purposes referred to the Committee, will be laid before the Council on the 11th instant.

4th March, 1880.

JAMES PAGET,
Chairman.

At the Special Council on April 7, 1880, Mr. John Cooper Forster was re-elected a Member of the Court of Examiners, his term of office having expired on March 17, 1880.

Special
Council,
March 17, 1880.

At the Quarterly Council on April 8, 1880, it was resolved that Paragraph 16, Section II. of the Report of the Committee on "Bye-laws relating to Fees and other matters," be not confirmed.

Quarterly
Council,
April 8, 1880.

The Collegial Triennial Prize (founded in the year 1819), consisting of THE JOHN HUNTER MEDAL, executed in gold to the value of fifty guineas, was awarded to Mr. George Arthur Woods, of Stockport, for his Dissertation on the Subject prescribed three years ago, namely, "THE ANATOMY AND PHYSIOLOGY OF THE THIRD, FOURTH, AND SIXTH NERVES, AS ILLUSTRATED BY OBSERVATION AND EXPERIMENT IN HEALTH, AND BY REFERENCE TO THE EFFECTS OF INJURY AND DISEASE."

It was resolved by the Council, that, as recommended by the Jacksonian Committee, the subject of the next Collegial Triennial Prize be, "The relations between the Radicles of the Lymphatic System and the Capillary Vessels." It was also resolved that the subject of the Jacksonian Prize for the ensuing year 1881 be, "The Pathology and Surgical Treatment of Diseases of the Hip-joint."

A letter was read from Mr. C. Wahab, Secretary to the Indian Medical Service Defence Fund, concerning certain alleged grievances experienced by the Medical Officers of Her Majesty's Indian Army in consequence of recent changes in the Service, and suggesting that the Council should address a remonstrance on the subject to the Secretary of State for India. The letter, with accompanying documents, was referred to the President and Vice-Presidents, who have, in consequence, written a letter to the Secretary of State for India, calling his attention to the alleged unfair treatment received at the hands of the Government by the Officers of the Indian Medical Service, and requesting his Lordship in Council to take into consideration these grievances, and to favourably entertain any remedial measures which may be suggested for securing to the Medical Officers a fulfilment of the conditions upon which they entered the Service. To this letter an answer has been received from the India Office, stating that Lord

Hartington will duly consider any representation "he may receive as to the operation of recent orders published in India regarding the Indian Medical Service."

Ordinary
Council,
May 13, 1880.

At the Ordinary Meeting of Council on May 13, 1880, the decision of the previous Council in reference to the non-confirmation of paragraph 16 Section II. of the Report of the Committee on "Bye-Laws relating to Fees and other matters" was modified by the adoption, *nem. con.*, of the recommendation contained in that paragraph that the payment of Fees to the Committee of Auditors should cease.

The President handed to Mr. G. A. Woods the document awarding to him the Collegial Triennial Prize.

The following First Report of the Committee on "the necessary arrangements for the institution of additional Examinations for the Membership and Fellowship of the College, was approved and adopted by the Council, and directed to be entered on the Minutes, namely,—

The Committee appointed on the 13th of November, 1879, to consider and to report to the Council on "the necessary arrangements to be made for the institution of Examinations in Chemistry, Materia Medica, Pharmacy, and Midwifery to be passed by all Candidates (not otherwise qualified in these subjects) for the Membership and Fellowship of the College," and "to advise the Council as to the Degrees, Diplomas, or Certificates which should be accepted as exempting Candidates from the necessity of passing the Examinations in these subjects," have this day met and have adopted the following recommendation as their first report to the Council thereon, viz.:—

The Committee recommend that, in view of the uncertainty which prevails as to the compulsory establishment of a Conjoint Scheme in each Division of the United Kingdom, and of the desirability of some combination being effected amongst the English Medical Corporations for the purposes of a complete Examination in Medicine, Surgery, Midwifery, the Council should give notice to the several Medical Authorities concerned in "The Conjoint Scheme," of the intention of this College to withdraw from that Scheme, so that the independent action of the College may be thereby secured.

May 10th, 1880.

JOHN BIRKETT,
Chairman.

Mr. John Simon's resignation of his Office as a Member of the Council was accepted.

The following Motion, proposed by Mr. Marshall and seconded by Sir James Paget, was, with one dissentient, carried, viz. :—1. That under the powers given by Section XIV. of the Bye-Laws, the Council do proceed, as soon as is practicable, to institute an Examination in Elementary Anatomy and Physiology, and in such other subjects as the Council shall from time to time determine, to be passed by Candidates for the Membership of the College at or after the expiration of their first year of study. 2. That it be referred to the "Committee on Examinations on Anatomy and Physiology," to prepare and submit to the Council, for approval, the necessary regulations for defining and conducting such Examinations. 3. That it be referred to the Committee on Bye-Laws to prepare the revised or new Formulæ which will be required for the re-arrangement of the payment of Fees, by the institution of such Examination.

At the Ordinary Council, June 10, 1880, the last Meeting during the official year, the Report of the Committee on additional Examinations was modified by the adoption of the following amendment, proposed by Sir James Paget, namely :—

Ordinary
Council,
June 10, 1880.

"That that part of the Minutes of the last Council which relates to the giving 'notice to the several Medical Authorities concerned in 'the 'Conjoint Scheme' of the intention of this College to withdraw 'from that Scheme' be not confirmed, and that the following Resolution be adopted in lieu thereof, viz. :—'In view of the uncertainty 'which prevails as to the compulsory establishment of a Conjoint 'Scheme in each division of the United Kingdom, the Council give 'notice to the several Medical Authorities in England of their intention, whether alone or in conjunction with other bodies, to make 'arrangements for the institution of a complete Examination to be 'passed by all Candidates for the Diplomas of Member and Fellow of 'the College.'"

The Formulæ for new Bye-Laws were also accepted by the Council, and, subject to their approval by the Secretary of State and the legal authorities, will shortly come into operation.

At this Council the following Resolution concerning Dr. John Young, of Kingston, Canada, a Member of the College, was adopted *nem. con.* :—

"That Dr. John Young, in issuing the circulars relating to his 'Indian Rose Pad,' has publicly professed a secret method of cure, and is thereby guilty of an offence against Clause 1, Section XVIII. of the Bye-Laws; and that in consequence of such offence he be and is hereby removed from being a Member of the College."

The Statistics of the College Examinations for the official year are as follows :—

THE MUSEUM.

THE Hunterian Collection, which forms the basis, and still a large proportion, of the contents of the present Museum of the Royal College of Surgeons of England, was originally arranged in a building which its Founder, John Hunter, erected for it in 1784, behind his house in Leicester Square.

John Hunter died October 16th, 1793, aged 65. By his will he directed the Museum to be offered in the first instance to the British Government, on such terms as might be considered reasonable, and in case of refusal, to be sold in one lot, either to some foreign state, or as his executors might think proper.

In the year 1799 Parliament voted the sum of £15,000 for the Museum, and an offer of it being made to the Corporation of Surgeons, it was accepted on the terms proposed by Government*.

In 1806 the sum of £15,000 was voted by Parliament in aid of the erection of an edifice for the display and arrangement of the Hunterian Collection; a second grant of £12,500 was subsequently voted, and upwards of £21,000 having been supplied from the funds of the College, the building was completed in Lincoln's-Inn-Fields, in which the Museum was opened for the inspection of visitors in the year 1813.

* The following are the Terms and Conditions on which the Hunterian Collection, purchased by Parliament, was delivered to the late Corporation of Surgeons; which Corporation having become dissolved, the Members thereof were re-incorporated by Charter, dated the 22nd day of March, 1800, under the Title of The Royal College of Surgeons in London:—

1st. The Collection shall be open Four Hours in the Forenoon of two days every week for Inspection and Consultation of the Fellows of the College of Physicians, the Members of the Company of Surgeons and Persons properly introduced by them; a Catalogue of the Preparations, and a proper Person to explain it, being at those times always in the Room.

2nd. That one Course of Lectures, not less than twenty-four in number, on Comparative Anatomy and other subjects, illustrated by the Preparations, shall be given every year by some Member of the Company.

3rd. That the Preparations shall be kept in a state of Preservation, and the Collection in as perfect a state as possible, at the Expense of the Corporation of Surgeons, subject to the annual Inspection and Superintendence of the Trustees.

4th. That there shall be a Board of Trustees, to consist of sixteen (increased to seventeen by the Lords of the Treasury in 1856) Members, by virtue of their Public Offices, and of fourteen others, to be appointed, in the first instance, by the Lords of the Treasury, and afterwards to be elected, as Vacancies may happen, by a Majority of the remaining Trustees.

5th. That the Museum shall always be open for the Inspection of all or any of the said Trustees, who are to take care that the Corporation of Surgeons perform their Engagements respecting the said Collection. That a day be appointed for the annual Inspection of the Museum, by the Trustees acting collectively as a Board; and that they are also to have quarterly Meetings, for the transacting of any Business relative to the Museum, and for the filling up of such Vacancies as may happen in the number of the Trustees; and that the Corporation of Surgeons shall engage some Person to officiate as Secretary to the Board upon such occasions, and to issue previous Notice to the Members, in which he is to state particularly whether any Vacancies are to be filled up by new Elections.

In consequence of the large number of additions, this building became too small for the adequate display and arrangement of its contents; and more space being at the same time required for the rapidly increasing Library, the greater portion of the present building was erected, wholly at the expense of the College, in 1835, at a cost of about £40,000, and the Hunterian and Collegiate Collections were re-arranged in what are now termed the Western and Middle Museums, which were opened for the inspection of visitors in 1836.

Further enlargement of the building having become necessary by the continued increase of the Collection, the College, in 1847, purchased the extensive premises of Mr. Alderman Copeland, in Portugal Street, for the sum of £16,000, and in 1852 proceeded to the erection of the Eastern Museum, at the expense of £25,000, Parliament granting £15,000 in aid thereof. The re-arrangement of the specimens was completed, and the additional portion of the building opened to visitors in 1855.

The Hunterian Collection was estimated to consist of 13,682 specimens, distributed under the following heads:—

Physiological Department, or Normal Structures.

| | |

| Physiological preparations in spirit | 3745 |

Of the additions by which the size and value of the Collection have been so materially increased since it came into the possession of the College, very many have been presented by Fellows and Members of the College, and other persons interested in scientific pursuits. Among the largest contributions from this source have been the Collection, consisting of 847 specimens, presented in 1811 by Sir William Blizard, and a valuable series of Pathological specimens presented in 1851 by Sir Stephen L. Hammick. At the same time the Council of the College have availed themselves of various opportunities as they have occurred to purchase specimens of interest, especially at the dispersion of private anatomical and pathological museums, as that of Sir A. Lever in 1806, of Mr. Joshua Brookes in 1828, of Mr. Heaviside in 1829, Mr. Langstaff in 1835, Mr. South in the same year, Mr. Howship and Mr. Taunton in 1841, Mr. Liston in 1842, Mr. Walker in 1843, and, deserving of especial mention on account of the great number and value of the specimens acquired, those of Sir Astley Cooper in 1843 and Dr. Barnard Davis in 1880.

The Histological Collection, of which the 215 Hunterian specimens (prepared by Hewson) constitute the nucleus, was chiefly formed by the late Professor Quekett, with considerable additions by purchase from Dr. Tweedy J. Todd, Mr. Nasmyth,

and Professor Lenhossek. It now contains upwards of 12,000 specimens, all arranged and catalogued so as to be readily available for reference.

The superintendence of the Museum is confided by the Council of the College to a Committee of its Members, which Committee has held four meetings during the past year.

A summary of the progress made in the preservation, arrangement and augmentation of the Collection will be found in the following Report.

ANNUAL REPORT OF THE CONSERVATOR TO THE MUSEUM COMMITTEE.

(Presented June 29th, 1880.)

PATHOLOGICAL COLLECTION.

THE work of preparing the new edition of the Catalogue of the Pathological Series, which was mentioned in the last Report as having been undertaken by Sir James Paget, Dr. Goodhart, and Mr. Doran, has made steady progress during the year. The editors have met together in the Museum almost every Saturday afternoon, to compare and revise the descriptions of the specimens which have been drawn up by them individually at other times, and to discuss general questions as to arrangement and classification.

The opportunity has thus been afforded of ascertaining the deficiencies in the series which it is considered desirable, if possible, to fill up, so as to make the collection a complete exposition of the principal facts of pathological anatomy which are demonstrable by preserved specimens.

As has frequently been pointed out in previous Reports, the College, having none of the facilities for obtaining and selecting specimens possessed by the Museums attached to Hospitals, where operations and *post mortem* examinations are of constant occurrence, is entirely dependent upon the contributions of individual members of the profession. A list has therefore been issued, and published in most of the medical journals, and circulated among gentlemen who are in a position to assist in the desired object, of the specimens which are most needed for the completion of the series described in the first two volumes of the Catalogue, viz. those relating to General Pathology, and to the Injuries and Diseases of the Organs of Locomotion*.

As many of the pathological conditions mentioned in this list of desiderata are of not very frequent occurrence, it will probably be some time before a very full response to it is received; but several important additions have already been made in consequence of its issue.

* A copy of this list will be forwarded to any gentleman who will kindly signify his ability and willingness to assist the collection.

The total number of specimens added to this department since last year, amounts, as seen by the list annexed, to sixty-five, among which are many valuable preparations contributed by the medical officers of the Samaritan Free Hospital, by whose assistance, on this and former occasions, the series illustrating the diseases of the female sexual organs has been greatly increased.

A curious illustration of recovery from severe injury in one of the Cetacea is shown in the skeleton of a Beluga or White Whale (*Delphinapterus leucas*), which had suffered from complete lateral dislocation of the atlas from the occipital condyles, many years before death, resulting in bony union in this abnormal position with consequent very great contraction of the spinal canal. The animal (one of great rarity in the British seas) was taken near Dunrobin Castle, Sutherlandshire, in June last year, and its skeleton was sent to London for the purpose of preservation for the museum attached to the Castle; but when the condition of the bones of the cervical region was discovered, the Duke of Sutherland very generously relinquished his intention of keeping it, and presented it to our Museum, as the most suitable locality for such a remarkable and perhaps unique specimen.

NORMAL ANATOMY AND PHYSIOLOGY.

The collection of specimens of Comparative Anatomy has received an important addition in a series of brains of various species of mammals and birds, seventy-five in number, presented by the Zoological Society, through the kind assistance of the late Prosector, Prof. Garrod, F.R.S.

Some beautiful demonstrations of the anatomy of the horse's foot, by means of sections, have also been added.

The series of preparations illustrating human anatomy, both by means of mounted dissections and transverse frozen sections, has been continued, and several additions have been made to the series of bones marked to show the spaces occupied by the attachment of the muscles, kindly contributed by Mr. S. G. Shattock, Curator of the Museum of University College.

The very large male specimen of the Giant Salamander (*Sieboldia maxima*) from Japan, upwards of four feet in length, which had been kept for many years in the Gardens of the Zoological Society, having died during the last winter, was secured for the Museum by purchase, as previously no portion of this interesting form of animal was contained in the Collection. The skeleton, a considerable part of which is cartilaginous, and would therefore have been lost if dried in the usual way, has been carefully prepared as a spirit specimen, and all the viscera have been dissected and mounted.

OSTEOLOGICAL COLLECTION.

The first part of the new 'Catalogue of the Specimens illustrating the Osteology and Dentition of the Vertebrated Animals, recent and extinct,' contained in the Museum, and referred to in the last Report as in preparation, was published in October. It contains a list, with short descriptive notes, and the principal measurements of all the specimens relating to Human Osteology then in the Collection, amounting to 1311 in number.

It is preceded by an Introductory Chapter, explaining the method of classification, the nomenclature, and the measurements used, and followed by a tabulated *résumé* of the average measurements of the different races, and some observations upon the results, also by tables for finding out the principal indices used in craniometry, which, it is hoped, will be useful to future students in saving the labour of innumerable arithmetical calculations.

The whole of the Collection has been rearranged and renumbered according to the classification adopted in the Catalogue; and the opportunity has been taken of thoroughly cleaning and repairing all the specimens.

No sooner had this series been completely reorganized, than an event occurred, which is one of the most important in the history of the Museum, the acquisition by the College of the large and celebrated collection of human skeletons and crania belonging to Dr. Barnard Davis, of Shelton, Staffordshire, which in extent, and rarity and interest of the specimens contained in it, considerably exceeds that which the College has been so long in accumulating. The collection is well known to all students of Anthropology by the excellent descriptive catalogue (*Thesaurus Craniorum*) which its owner has drawn up and published at his own expense; and much anxiety has naturally been felt as to its future destiny, and some fear entertained lest it might be dispersed or pass into the custody of some foreign museum. Dr. Barnard Davis has himself always wished that the collection should be placed in our Museum; and in order to obtain a permanent home for it, where there was a good prospect of its careful preservation, and of its being rendered accessible to all future students of human osteology, before making any other arrangement for its disposal, he offered it to the College, for a sum which is considered by all who have any experience of the value of such collections, as extremely moderate, viz. one thousand pounds. This offer was accepted by the Council, at the Meeting of January last, and since then nearly the whole of the collection has been transferred to the College, and temporarily located in the wall cases of the Western Museum. It consists of fourteen complete articulated skeletons of men of various races, about sixteen hundred crania, and several hundred bones, casts, and other objects. All are carefully authenticated and catalogued; but they will require cleaning, re-numbering, and arrangement according to the system adopted in the Museum Catalogue before they can be made fully available for examination. I hope that this will be done in the course of the ensuing autumn. Besides the crania interesting chiefly as showing race characteristics, there are many important illustrations of various forms of anatomical peculiarity or abnormality, not previously represented in the Collection.

An alteration, involving very small expense, has sufficed to make room for this large accession in the wall cases of the ground floor of the Western Museum, which were already devoted to the series of Human Osteology. These cases had false wooden backs by which their depth, from before backwards was greatly diminished. By the removal of these backs an additional depth of nearly three feet has been gained, and by placing the crania in three rows instead of one, the space for their accommodation has been trebled. Although not quite so convenient of access, or presenting

so extended and imposing a front, as if in single row, this arrangement answers the purpose of preserving the specimens and allowing of their examination whenever really required as objects of study, and is the only method by which sufficient room could be obtained without enlarging the structure of the Museum.

The combination of Dr. Barnard Davis's collection with our own adds greatly to the value of both, the united series being not only the most extensive in this country, but, except that at Paris, in the world. The importance of numbers in such a collection lies in the fact, only recently fully appreciated by anthropologists, that it is more by the preponderance of certain characters in a large number of members of any of the natural groups into which man is divided, than by the exclusive or even constant possession of these characters in each of its members, that the group as a whole must be characterized. Hence arises the great value of *averages* in all cases in which distinctions can be expressed by the numerical method. Provided that the data upon which these averages are based shall have been obtained from a sufficient number of individuals, they can be absolutely relied upon to express the prevailing or most characteristic development of each particular feature in any group, and permit satisfactory comparisons between the condition of that feature in different groups. There is no doubt but that this system of investigation when pursued with more ample materials than have hitherto been at command, and with more extended experience of what is important and what only of secondary interest, will prove of the greatest value in throwing light upon the history and the mutual relations of the different branches of the human race. The larger the series from any given locality, the more chance there is of obtaining fair averages of the predominating characters of the race inhabiting that locality, and of eliminating the influence of individual variation and accidental intrusion of other races.

In connexion with this subject, I have the pleasure of reporting a valuable gift to the Museum, of a similar nature to that recorded last year from Mr. Erasmus Wilson. A collection of remains of natives of the islands of the Western Pacific, consisting of a complete skeleton of a man from Erromango, seven skulls from Ovalau, in the Fiji Islands, and eleven crania and heads preserved in a remarkable manner, hitherto quite unknown, from Mallicollo, a small island in the New Hebrides group, were lately forwarded to England for sale by the person by whom they were collected, and have been purchased and presented to the Museum by Mr. Luther Holden, President of the College. Forster, who accompanied Captain Cook in his visit to these islands in 1774, says "In Mallicollo we observed that the greater part of the skulls of the inhabitants had a very singular conformation; for the forehead, from the beginning of the nose, together with the rest of the head, was much depressed and inclining backwards, which causes an appearance in the looks and countenances of the natives similar to those of monkeys." These skulls fully confirm the accuracy of this description, and show that the peculiar conformation is evidently due to artificial compression in infancy, exactly according to the manner of the ancient Peruvians, which is the more singular as the practice is not known to exist in any other of the numerous islands of the Pacific.

The appended list will show that, besides the above, there have been

many additions by donation to the series of Human Osteology. Among these I may specially call attention to a very remarkable skull of a microcephalic idiot, the only example of the kind in the Museum, presented by Dr. John Shortt, Surgeon-Major in the Madras Army, who has also been at considerable trouble and expense in collecting a large series of crania of natives of Southern India, which were previously among the desiderata of the Museum. Four skulls of Zulus obtained on the field of Isandhlwana, in December last by Mr. H. F. Fynn, resident magistrate, and forwarded by Col. C. B. H. Mitchell, Colonial Secretary at Natal, at the request of Dr. R. J. Mann, are of great interest, and it is to be hoped that they are only the precursors of a more extended series from the same part of the world, for collecting which the late military operations must have afforded considerable opportunities.

THE LIBRARY.

THE formation of a regular Library may be said to have commenced in the year 1801, at which time and in succeeding years presentations and bequests of books, often in considerable numbers, were made to the College—the principal donors being Dr. Baillie, Sir Everard Home, Sir Charles Blicke, the widow of Mr. Sharp, Sir Ludford Harvey, Dr. Fleming, Mr. Cotton, and Mr. Long. The Court of Assistants also directed from time to time the expenditure of small sums of money for the purchase of books, and eventually voted a sum of £100 per annum for this purpose. Sir Charles Blicke, in the year 1816, invested the sum of £300, the proceeds of which sum were to be devoted to the same object. Some of the purchases thus made were considerable, as in the cases of the Libraries of Mr. Pitt, Mr. St. Andre, and Sir Anthony Carlisle, and books of importance were added at the recommendation of the Conservator of the Museum and others. In this way a Library of considerable value was gradually accumulated, but it was only accessible to a limited number of persons. In 1827 active steps were taken to render it more generally useful, and with this object catalogues and extensive lists of desirable acquisitions were ordered to be prepared. Large sums of money were also expended during this and the ensuing two years, amounting in the aggregate to nearly £6000. A Librarian was appointed, and in 1828 the Library, then containing 10,500 volumes, was thrown open to members of the College, and all other persons engaged in the pursuit of natural science were freely admitted. This large collection, thus opened, offered great facilities to the studious. By means of extensive additions, the collection was well nigh complete in works on Medicine and Surgery, both domestic and foreign, whilst it was also very rich in publications relating to the accessory sciences. The transactions of Academies and Societies, and the collection of periodical publications in general, owing to their completeness, and the difficulty with which access can be obtained to this class of literature elsewhere than in large libraries, formed a valuable feature. The maintenance of the Library from that time to the present has involved a very considerable expenditure of the funds of the College. It has been the object of those to whose care it has been confided to ensure the completeness and excellence of the collection, and great facilities of reference have been provided by the preparation of additional catalogues and indexes of subjects. During the past year there have been added to the Library 522 volumes, including 186 new works and 317 tracts, pamphlets, essays, reports, and theses. The entire collection now consists of 37,668 volumes, comprising 14,882 works, and 39,021 tracts, pamphlets, essays, reports, and theses.

The following is a list of the Donations that have been presented to the Library during the year 1879-80, viz. :—

Erasmus Wilson Trust.

The following are the conditions relating to the Erasmus Wilson Trust:—

1. The special object of the Erasmus Wilson Trust is to promote the making of original Researches in Pathology by Members of the Royal College of Surgeons of England, and the publication of the results of such researches by Lectures to be delivered in the College.

2. The annual income of the Trust is about £150; which income, or so much of it as shall become due under the conditions and regulations of the Trust, will be paid, year by year, by the Council of the College, in recognition of research and publication as aforesaid.

3. The Erasmus Wilson Trust Committee of the College receives and examines for the Council the applications of persons who desire to lecture under the Trust; and annually, towards the close of the calendar year, the Council receives from this Committee a report on such applications, and decides what Lecture or Lectures it will accept under the Trust for the respective ensuing year.

4. Any Member of the College who shall have made any sufficiently important original investigation in Pathology, and who, not having yet published the results of such investigation, shall be ready to make his first publication of them by means of a Lecture or Lectures at the College, will, unless he be a Member of the Council of the College, be eligible as a Candidate under the Trust.

5. Every person who desires to offer himself as a Candidate under the Trust must do so by written application, describing the research which he has made, on the results of which he offers to lecture under the Trust, and the new knowledge which he believes himself able to establish in extension or correction of previous teaching in the same matter ; and he must be prepared to support his application by personally furnishing to the Trust Committee such explanations or demonstrations as may be required.

6. Appointment by the Council to lecture under the Trust may in any year be of one person alone, or of two or three persons, according as the Council, in view of the different candidatures for the year, may see fit ; but the Lectures to be given in any one year, whether by one person or by more, will not exceed three in number.

7. No appointment by the Council can extend beyond the Lectures of a single year : but the fact of having lectured under the Trust will not disqualify for further appointment ; and the Council reserves discretion to itself to repeat for any number of successive years (if in view of the successive new candidatures it shall see fit) the appointment of the same person or persons.

8. If, at any period for appointment, the Council finds no applications which it deems acceptable, it will, for that turn, refrain from making any appointment under the Trust.

9. Each person appointed to lecture under the Trust will receive, in respect of the Lecture or Lectures which he delivers, an honorarium of five guineas per Lecture, as customarily paid for other College Lectures ; and he will further receive, in respect of the Research lectured on, such payment as the Council, having regard to the value of the Research, and to the expense incurred for it, shall, after delivery of the Lecture or Lectures, see fit to reward.

10. Applications with a view to Lectures to be given in the coming year 1880 will be received by the Secretary of the College at any time in the month of October 1879 ; but none can be received after the end of that month. In the meantime the Secretary will give to intending Candidates any further explanations which they may need.
